

## ■ YOUR AI MONEY MACHINE

# AI GENERATED MEDIA GUIDE

The Tools, The Stack, And How To Use Them Starting Today

■ **THE SHIFT:** A solo creator can now produce what used to require an entire production team — scriptwriter, voice actor, video editor, graphic designer, and social media manager. AI does all of it. You direct it.

## THE FOUR-TOOL PRODUCTION STACK

### ■ HEYGEN — AI VIDEO AVATARS — [heygen.com](https://heygen.com)

HeyGen creates a realistic video avatar that looks and sounds like you. Upload a short video of yourself. HeyGen builds a digital version that lip-syncs to any script. No camera needed after the initial setup.

**What it replaces:** Being on camera for every video. Recording, reshooting, lighting setup.

**How to use it:** Paste your script. Select your avatar. Choose a background. Generate. Download. Done.

**Free tier:** Yes — limited videos per month. Upgrade when you are ready to scale.

**Pro tip:** Create multiple looks — different outfits and backgrounds — for visual variety across videos.

### ■ ELEVENLABS — VOICE CLONING — [elevenlabs.io](https://elevenlabs.io)

ElevenLabs clones your voice from a short audio sample. Any script you type gets read back in your exact voice — tone, cadence, accent, everything. The output is indistinguishable from a real recording.

**What it replaces:** Recording voiceovers. Retaking audio. Managing microphone setup and room acoustics.

**How to use it:** Upload 1-2 minutes of your natural speaking voice. ElevenLabs builds your voice model. Paste any text. Download the audio.

**Free tier:** Yes — limited characters per month. More than enough to start.

**Pro tip:** Record your voice in a quiet room for the clearest clone. The better the sample the better the output.

## ➤ ■ CAPCUT — AI VIDEO EDITING — [capcut.com](https://www.capcut.com)

CapCut uses AI to handle editing tasks that used to require professional software. Auto-captions, background removal, transitions, text overlays, and music — all handled with minimal manual work.

**What it replaces:** Hours of manual video editing. Professional editor fees. Complex software learning curves.

**How to use it:** Import your HeyGen video. Add auto-captions. Add text overlays. Add music at low volume. Export at full quality.

**Free tier:** Yes — full featured free version available.

**Pro tip:** Use the Auto Captions feature — captions increase watch time by up to 40% on silent-scroll platforms.

## ■ CHATGPT — SCRIPTS AND COPY — [chatgpt.com](https://www.chatgpt.com)

ChatGPT writes every script, caption, hashtag set, email, and piece of copy your content operation needs. It is the engine that feeds everything else in the stack.

**What it replaces:** Staring at a blank screen. Writer's block. Outsourcing copywriting.

**How to use it:** Describe your video topic and audience. Ask for a 90-second script with a hook, 3 tips, and a CTA. Edit as needed.

**Free tier:** Yes — GPT-4o available free with usage limits.

**Pro tip:** Create a master prompt that includes your brand voice, audience, and CTA so every script is consistent.

# THE PRODUCTION WORKFLOW — STEP BY STEP

---

This is the exact sequence to produce one complete video from scratch:

<b>1</b>	<b>ChatGPT — Write The Script</b> Prompt: Write a 90-second video script about [topic] for [audience]. Start with a hook. Give 3 specific tips. End with a CTA to visit YourAIMoneyMachine.com.
<b>2</b>	<b>ElevenLabs — Generate The Audio</b> Paste the script into ElevenLabs. Select your cloned voice. Generate. Download the MP3.
<b>3</b>	<b>HeyGen — Create The Video</b> Paste the script into HeyGen. Select your avatar and background. Upload or let HeyGen generate audio. Generate the video. Download MP4.
<b>4</b>	<b>CapCut — Edit And Polish</b> Import the HeyGen video. Add auto-captions. Add branded text overlays. Add background music at 15-20% volume. Export at 1080x1920.
<b>5</b>	<b>ChatGPT — Write Captions</b> Prompt: Write a TikTok caption, Instagram caption, YouTube description, and Pinterest description for a video about [topic]. Include relevant hashtags.
<b>6</b>	<b>Post — All Four Platforms</b> TikTok 7AM. Instagram Reels 7AM. YouTube Shorts 12PM. Pinterest same day. Reply to every comment in the first hour.
